How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

MD Financial Management Inc. has rated the volatility of this Fund as medium.

Because this is a new fund, the risk rating is only an estimate by MD Financial Management Inc. Generally, the rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

More information about the risk rating and specific risks that can affect the Fund’s returns, see “What Are the Risks of Investing in the Fund?” section of the Fund’s simplified prospectus.

No guarantees

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.
How has the Fund performed?

This section tells you how Series A units of the Fund have performed over the past 2 years. Returns are after expenses have been deducted. These expenses reduce the Fund’s returns.

**Year-by-year returns**

This chart shows how Series A units of the Fund performed in each of the past 2 calendar years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

**Average return**

As at April 30, 2020, a person who invested $1,000 in Series A units of the Fund at its inception would now have $1,322. This works out to an annual compound return of 9.7%.

Who is this Fund for?

Investors who:
- Are looking for a fund that is suitable as a core U.S. equity investment within a well diversified portfolio.
- Are seeking a passive investment approach to investing in U.S. stocks.
- Have an investment time horizon of over ten years.

This Fund is not suitable for an investor seeking a short-term investment.

A word about tax

In general, you’ll have to pay income tax on any money you earn on a fund. How much you pay depends on the tax laws where you live, the type of earnings (i.e., income or capital gains), and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, taxable fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the Fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. **Sales charges**

There are no sales charges applicable to this Fund.

2. **Fund expenses**

You do not pay these expenses directly. They affect you because they reduce the Fund’s returns.

As of December 31, 2019, the Fund’s expenses were 0.00% of its value. This equals $0.00 for every $1,000 invested.
