A Message to MD Family of Funds Investors

Dear MD Family of Funds Investor:

As part of our commitment to keeping you informed about your MD Fund investments, please find attached the 2024 Annual Management Report of Fund Performance (MRFP). If you also opted to receive the fund's financial statements, they are included in this package.

The annual MRFP is a regulatory document that supplements the annual financial statements. The document includes a brief discussion and analysis of the fund's investment activities, performance and financial highlights, as well as an explanation of how the markets and overall asset mix have affected the fund.

The report is produced on a fund-by-fund basis, and your report only includes information on the funds you owned as of December 31, 2024.

If you have any questions regarding these documents, please contact your MD Advisor or the MD Trade Centre at 1 800 267-2332.

We thank you for your continued investment in the MD Family of Funds.

MD Financial Management Inc. wholly owns or has a majority interest in the MD Group of Companies. It provides financial products and services, is the fund manager for the MD Family of Funds and offers investment counselling services. For a detailed list of the MD Group of Companies, visit md.ca.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Standard performance data assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges payable by any securityholder which would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Please read the prospectus before investing. You may obtain a copy of the prospectus before investing by calling your MD Advisor or the MD Trade Centre at 1 800 267-2332.

MD Dividend Growth Fund

Management Report of Fund Performance (December 31, 2024)

Investment Objectives and Strategies

The MD Dividend Growth Fund (the "Fund") seeks to produce a high level of consistent income while providing long-term capital appreciation by investing primarily in high quality dividend producing preferred and common shares of Canadian corporations. The Fund may also invest in foreign equities, income trusts, and other income-producing securities.

The Fund employs an active, multiple investment adviser approach to leverage the individual strengths of each investment adviser.

The Fund employs a multi-manager approach which seeks to deliver excess returns compared to the benchmark and to provide diversification by avoiding overconcentration in any single style, sector or market trend. Fund assets are allocated to a combination of the investment advisers for the Fund, based on the Manager's assessment of the investment advisers' skills, the predicted capital market environment, and the anticipated risk inherent in each investment adviser's strategy.

The Fund may not invest in companies that manufacture tobacco or tobacco-related products or cannabis or cannabis related products.

Risk

At times, a portfolio can be subject to any number of investment risks. The risk level of the Fund did not change significantly during the year. Descriptions of the investment risks associated with this Fund are detailed in the Simplified Prospectus.

Results of Operations

For the period ended December 31, 2024, the Fund had total returns of 16.0% (Series A), 17.7% (Series I), 17.1% (Series F), and 16.5% (Series D).

The Canadian equity market ended the 12-month period in positive territory as the S&P/TSX Composite Index returned 21.6%. The period saw the Bank of Canada (BoC) become the first Group of Seven central bank to cut interest rates. The BoC aggressively cut rates 5 times, with the last two cuts being a jumbo cut – 50 basis points. Interest rates declined from 5.00% to 3.25%.

The period witnessed equity markets generating double digits returns, while GDP growth averaged nearly 2.0% growth for the first three quarters of 2024, on an annualized basis. By year-end, inflation has reached the central bank's target rate of 2%, it fell from 2.9% to 1.9% in November. The drop in rates in the second half of 2024 saw a surge in housing starts rising 8.4% month-over-month in November, the highest level in four months. Though, the manufacturing sector remains a sore spot as it contracted again in October, marking its 11th straight monthly contraction. The sector continued to be hindered by weak new orders and output.

Moving forward, BoC Governor Macklem said 'the central bank isn't expecting a recession, though growth is slower than it had forecast.' He also said there was heightened uncertainty with the possibility that the incoming U.S. administration will follow through with threatened tariffs on Canadian exports.

Ten of the 11 GICS (Global Industry Classification Standard) sectors posted positive returns over the 12-month period. The best performing sectors were Information Technology, Financials and Energy. The worst performing sectors were Communication Services, Real Estate and Health Care.

Over the period, the Canadian dollar weakened against most major currencies, except the Japanese yen.

Consistent with its dividend-focused investment mandate, the Fund held a higher allocation to higher yielding companies as a contributing factor to meeting its elevated yield objective versus the S&P/TSX Capped Composite Index.

Out of the eleven GICS sectors represented in the Fund, the Financials, Energy and Industrials sectors retained the highest portfolio weightings, while Healthcare and Consumer Discretionary sectors received the lowest allocation. The majority of sectors contributed positively to performance, with the most robust contributions coming from the Financials and Energy sectors.

The Fund maintained an average exposure of 7.2% to companies domiciled outside of Canada, contributing positively to performance.

The Fund's active multi-strategy structure combines complementary investment approaches. The Fund is actively managed, with positions altered based on relative opportunities with a focus on dividend yield.

As at December 31, 2024, the total net asset value of the Fund was \$233.00 million, an increase of 4% since the beginning of the year. The increase is due to net investment gain, offset by net redemptions and income distributions to unitholders.

Recent Developments

STRATEGIC CHANGES

On September 16, 2024, MD Financial Management Inc. (MD) announced the appointment of Hillsdale Investment Management Inc. as an investment sub-adviser for the MD Dividend Growth Fund. The revised investment sub-adviser structure for the Fund will have Hillsdale join 1832 Asset Management L.P. These changes will not alter the fund's investment objectives or investment risk level.

There have been no strategic changes and the Fund continues to be managed in a manner consistent with its investment mandate and is positioned to achieve its long-term objectives. The Investment Advisers have adhered to their investment disciplines and portfolio strategies.

Related Party Transactions

MD Financial Management Inc. is the Manager, Registrar and Trustee of the Fund. As Manager, MD Financial Management Inc. manages the overall business of the MD Family of Funds and the MDPIM Pools (collectively "the Funds") and is responsible for: setting investment objectives, providing and/or retaining the services of third party service providers for fund accounting services, administration services, and promoting the sales of the Fund's units.

The Manager is a wholly-owned subsidiary of The Bank of Nova Scotia (Scotiabank).

1832 Asset Management LP, a subsidiary of Scotiabank, is the portfolio manager of the Funds. MD Financial Management Inc., as Manager, continues to have overall responsibility for the management of the Funds. MD Financial Management Inc. is the registered portfolio manager and provides the discretionary portfolio management services to managed-account clients through MD Private Investment Counsel. 1832 Asset Management LP is responsible for the overall performance of the Funds, the management of fund assets and the selection and monitoring of the Funds' sub-advisors.

MD Dividend Growth Fund

Management Report of Fund Performance (December 31, 2024)

The Manager, on behalf of the Fund, may enter into transactions or arrangements with other members of Scotiabank or certain other companies that are related or connected to the Manager (each a “related party”). All transactions between the Fund and the related parties are in the normal course of business and are carried out at arm’s length terms.

As Registrar, MD Financial Management Inc. keeps track of the owners of units of the Fund, processes purchase, transfer and redemptions orders, issues investor account statements and issues annual tax reporting information.

As the Fund is organized as a Trust, investing in the Fund means purchasing units of the Trust. As Trustee to the Fund, MD Financial Management Inc. holds actual title to the property in the Fund—the cash and securities the Fund invests in—on behalf of the unitholders.

The principal distributor is MD Management Limited. As principal distributor, MD Management Limited markets the units of the Fund through its offices across Canada. MD Management Limited is a wholly owned subsidiary of MD Financial Management Inc.

INDEPENDENT REVIEW COMMITTEE

The Manager has established an independent review committee (the “IRC”) in accordance with National Instrument 81-107 – Independent Review Committee for Investment Funds (“NI 81-107”) with a mandate to review and provide recommendations or approval, as required, on conflict of interest matters referred to it by the Manager on behalf of the Fund. The IRC is responsible for overseeing the Manager’s decisions in situations where the Manager is faced with any present or perceived conflicts of interest, all in accordance with NI 81-107.

The IRC may also approve certain mergers between the Fund and other funds and any change of the auditor of the Fund. Subject to any corporate and securities law requirements, no securityholder approval will be obtained in such circumstances, but you will be sent a written notice at least 60 days before the effective date of any such transaction or change of auditor. In certain circumstances, securityholder approval may be required to approve certain mergers.

The IRC has five members: Stephen J. Griggs (Chair), Heather A.T. Hunter, Jennifer L. Witterick, Cecilia Mo and Steven Donald each of whom is independent of the Manager.

The IRC prepares and files a report to the securityholders each fiscal year that describes the IRC and its activities for securityholders, as well as contains a complete list of the standing instructions. These standing instructions enable the Manager to act in a particular conflict of interest matter on a continuing basis provided the Manager complies with its policies and procedures established to address that conflict of interest matter and reports periodically to the IRC on the matter. This report to the securityholders is available on the Manager’s website or, at no cost, by contacting the Manager.

The compensation and other reasonable expenses of the IRC will be paid out of the assets of the Fund as well as out of the assets of the other investment funds for which the IRC may act as the independent review committee. The compensation for the IRC is an annual flat fee. Expenses of the IRC may include premiums for insurance coverage, travel expenses and reasonable out-of-pocket expenses.

The Manager is required to advise the IRC of any breach of a condition of any standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager free from any influence by an entity related to the Manager and without taking into account any consideration to any associate or affiliate of the Manager; (b) represents the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager’s written policies and procedures. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Manager, in respect of its management of the Fund relied on IRC standing instructions regarding related party transactions as set out below:

- Paying brokerage commissions and spreads to a related party for effecting security transactions on an principal basis on behalf of the Fund;
- Purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- Investments in the securities of issuers for which a related underwriter acted as an underwriter during the distribution of such securities and the 60-day period following the completion of such distribution;
- Purchases of securities of a related party;
- Investment Advisor Monitoring and Oversight

Management Fees

MD Financial Management Inc. provides the Fund with investment management and administrative services, including fund accounting and unitholder record-keeping. In return, MD Financial Management Inc. receives an annual management fee and an annual administration fee, both based on a fixed percentage of the daily net asset value of the Fund. Management fees are paid weekly and administration fees are paid monthly.

MD Financial Management Inc. pays MD Management Limited, a related party, a fee for providing financial planning services to Series A unitholders. The estimated breakdown of the services received in consideration of the management fee for Series A is as follows:

(As a percentage of management fees)	
Financial Planning Services	60.5%
Investment Management and Other	39.5%

Series F unitholders pay a separate managed account fee directly to MD Management Limited. 100% of the management fee on Series F and Series D is for investment management and other services.

No management fees are paid by the Fund with respect to Series I units. Series I unitholders pay a negotiated fee directly to MD Financial Management Inc. for investment management and administrative services.

Past Performance

The following bar chart shows the Fund’s annual performance for each of the years shown, and illustrates how the Fund’s performance changed from year to year. The chart shows, in percentage terms, how much an investment made on the first day of each calendar year would have grown or decreased by the last day of each calendar year.

MD Dividend Growth Fund

Management Report of Fund Performance (December 31, 2024)

The performance information assumes that all distributions made by the Fund were reinvested in additional units of the Fund and does not take into account sales, redemption, distribution or other optional charges that would reduce returns. How the Fund has performed in the past does not necessarily indicate how the Fund will perform in the future.

ANNUAL COMPOUND RETURNS

The following table shows the Fund's historical annual compound return for the past one-, three-, five- and ten-year periods ended on December 31 and since inception of the new series, as compared to the return of the S&P/TSX Capped Composite Index.

	1 year	3 years	5 years	10 years	Since Inception
MD Dividend Growth Fund – Series A	15.99%	4.35%	6.70%	5.07%	
MD Dividend Growth Fund – Series I	17.75%	5.94%	8.35%	6.70%	
MD Dividend Growth Fund – Series F	17.13%	5.45%	7.83%		7.69%
MD Dividend Growth Fund – Series D	16.50%	4.80%	7.17%		7.42%
S&P/TSX Capped Composite Index	21.65%	8.58%	11.08%	8.65%	

[†]The Fund started series F units on October 3, 2017.

[‡]The Fund started series D units on June 25, 2018.

Management uses the S&P/TSX Capped Composite Index as the benchmark for this Fund because it represents the aggregate common share returns of Canada's largest companies. Although index returns are hypothetical—as they do not reflect the true cost of owning or managing the underlying stocks—they are one of several useful indicators. By comparing the Fund's performance to the movements of the benchmark, we are able to assess how the Fund is doing. For example, some short-term deviations can signal the need for change while others confirm the expectations of a longer-term strategy. If management were to ascertain that a fund's over- or underperformance was the result of excessive risk-taking or deviation from the investment mandate, we would, on behalf of all our unitholders, address these issues with the Investment Adviser, and make changes if necessary.

MD Dividend Growth Fund

Management Report of Fund Performance (December 31, 2024)

As illustrated in the above table, the Fund underperformed the S&P/TSX Capped Composite Index in 2024. Although an overweight to iA Financial alongside avoiding weakness in BCE were two bright spots, they were not enough to offset weakness from a lack of Shopify and overweight in cash, REITs, telcos and utilities. Despite the disappointing relative result, the Fund's absolute return should generally be viewed as a very good result considering the Fund's more conservative dividend-paying focus which is demonstrated by its characteristics for downside protection and maintaining a beta below 1.

Regarding Forward-Looking Statements

¹ This information is provided as at December 31 of the year shown.

² The management expense ratio ("MER") is based on total expenses for the stated period (excluding commissions, withholding taxes and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of exchange traded funds ("ETFs") in which the Fund has invested, expressed as an annualized percentage of daily average net asset value during the period.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

⁴ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
